

We're here to help

Trusted Communications And Collaboration Tools To Power Through Unexpected Challenges

Vonage understands the importance of enabling entire organizations to communicate, collaborate, and remain productive in a way that limits the impact of the latest health events. **Vonage Business Communications helps organizations achieve a seamless transition toward a remote workforce.**

Security and safety first

The innovative Vonage products power remote work and flexibility for teams around the world. Every sector—including educators, healthcare providers, and non-profits—must follow the recommendations of global health officials and limit exposure in heavily populated areas such as the workplace. And your organization can count on Vonage unified communications to foster collaboration and reliable productivity.

Our Free Three (3) Month Offer¹

If you are an educator, healthcare provider, or a non-profit in the US, UK, or Australia—we want to provide you with Vonage Business Communications services **free for up to three (3) months**.

This offer will afford your teams with access to all Vonage Business Communications, which features:

- Calling
- SMS
- Team messaging
- Video collaboration
- Fax
- Vonage App Center

We also offer expertise on Vonage product implementation at no additional charge so that you can continue to communicate and collaborate effectively with your students, patients, and customers.
