

Maximize Gains of Leveraging Microsoft's Technology and React Proactively to Cyber Risks

Value Added Benefits

Microsoft Corporation has created powerful programs and incentives that help businesses scale faster, cut costs and Go-To-Market speedily. Exelegant, a 10-time Gold Microsoft Partner, helped multiple companies make custom roadmaps to leverage open funds and opportunities from Microsoft to get you to your organizations business goals faster. Caring for the success of our partners we developed **Value Added Benefits Program** that not only brings economy on your current technology appetites, but also helps you to strengthen your security posture and communicate the progress to your team members.

Value Added Benefits Program for Microsoft's Clients

TrustElements contextualizes risk in qualitative, quantitative and easy-to-understand business terms to guide strategic decisions while supporting company growth.

Game-changing capabilities
