Moving to the cloud: an easy risk-free experience with the Exelegent team

Microsoft Azure

ABOUT Exelegent:

Exelegent specializes in providing clients with a secure and efficient digital workplace. Our solutions can be customized to fit any required framework such as HIPAA, CIS20, NIST-800-53, and many more. We leverage the most powerful and secure tools available, such as Microsoft Azure which allows our clients to remain productive and secure.

WHAT WE OFFER

Cost optimization
Reduce capital costs for holding on-premises servers, IT personnel, and licensing.

Go to market faster with the help of our Microsoft Gold-certified experts.

Security & compliance
Azure Sentinel provides full visibility of your IT processes through controlling, alerting, and providing automatic responses to incidents.

Migration
Import your data into cloud to create a strong base with the right processes and customized platforms to effectively manage your data. We eliminate your data loss and maintain compliance.

Scalability and flexibility
Enable configuration of the new resources in minutes without affecting normal operations. We can help you manage explosive storage growth to meet the set ROIs.

WHAT OUR CUSTOMERS ARE SAYING

"We decided to move to Azure for a variety of its benefits: cost efficiency, security, and scalability that are crucial to empower our growth. Exelegent has become our trusted business partner and completed migration on time, alleviated hosting responsibilities, and gave us capabilities to enable team productivity and data security.

– Kevin Hannigan, President, Automated Control Concepts

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
